

MDS Autoclaves

Dentalclave 18L

The MDS Medical B class 18 Litre autoclave contains high quality components to combine both speed and reliability. This autoclave will comfortably withstand the demands of today's clinic environment. This autoclave enables a fast turn around of sterilising the instruments.

The 5 button LCD display provides ease of use. The machine also offers ease of traceability and cycles due to its built-in printer and USB functionality.

In addition to this we can provide the optional extra of our data management system.
